CHENHAO ZHOU

Ph.D. Candidate | Graduate Instructor

Dept. of Supply Chain Management | Rutgers Business School

Newark: 1 Washington Pl, Newark, NJ 07102 New Brunswick: 100 Rockafeller Rd, Piscataway, NJ 08854

(929) 314–1613 • chenhao.zhou@rutgers.edu • www.chenhaozhou.me •

EDUCATION

Rutgers Business School, Rutgers University **May 2026**

Ph.D. in Management | Concentration: Supply Chain Management | GPA: 4.00/4.00 Expected

Dissertation Supervisor: Lei Lei[ref]

Committee: Weiwei Chen[ref], Xin Ding[ref], David Dreyfus[ref], Keith Skowronski

Reference ([ref]) contact details. Click

- Graduate School Academic Excellence Award (2025)
- Alfred J. Battaglia Memorial Fellowship (2024–2025)
- Summer Research Grant (2022–2024)

Tandon School of Engineering, New York University **2021**

M.S. in Engineering/Industrial Management; Mentor: Thomas Mazzone

Questrom School of Business, Boston University **2019**

B.S. in Business Administration

Professional Development

Robert H. Smith School of Business, University of Maryland 2025

AI & Career Empowerment Certificate

DataCamp: Data Scientist & Deep Learning in Python 2024

RESEARCH & TEACHING INTERESTS

Research Areas

Healthcare operations; Appointment scheduling

Triple-Aim; Sustainability & Equity

Causal inference; Team Dynamics; Fissured Workforce

Workforce experience & Patient satisfaction

Modeling: AI-driven; Agent-based Simulation

Teaching Areas

Operations & Supply Chain & Data Analytics

Operations & Supply Chain Management

Lean & Six Sigma; Project Management

Business Stats; Business Intelligence (ML/AI)

Elective: Supply Chain Finance

TECHNICAL SKILLS

Programming	HTML, MATLAB, Python, R, SQL, Stata, LaTeX
Optimization & Simulation	AMPL, AnyLogic, CPLEX, Gurobi, OptQuest
Econometric Methods	DEA, DID, GMM, IV-2SLS/LIML/CF, SEM
ML/AI Methods	Causal ML, Deep RL, Prediction
Daily Office & Visualization	Microsoft 365, Power BI, SAP, Tableau
Languages	English (fluent), Mandarin (native)

PUBLICATIONS & RESEARCH

Journal Articles

[1] Zhou, C.*; Ding, X.; Chen, W.; Lei, L.; Norrell, J.; Tray, A.; Evens, A.M. "Enhancing Efficiency and Workflow in Oncology Outpatient Services by Simulation-Based Optimization." *Annals of Operations Research*. Accepted, 2026. [ABDC A]

[2] Zhou, C.*; Lin, T.; Ding, X.; Chen, W.; Lei, L. "Balancing Workforce Fissuring and Service Quality." *Journal of Operations Management*. Major Revision (R3, revision due July 2026). [UTD24, FT50]

[3] Zhou, C.; Dreyfus, D.*; Bagchi, A. "Exploring the Triple Aim Through Clinician Empowerment." *Journal of Operations Management*. Major Revision (Resubmitted Feb 2026). [UTD24, FT50]

[4] Dreyfus, D.; Zhou, C.*; Lin, T. "Enhancing Healthcare Operations in Disadvantaged Communities." *Health Care Management Science*. Major Revision (R1, revision due Oct 2026). [SJR Q1]

TEACHING EXPERIENCE

Instructor of Record

SP2026	52:620:326 Supply Chain Analytics	Camden
SP2026	29:799:310 Demand Planning & Fulfillment	Newark
SU2025	29:799:310 Demand Planning & Fulfillment	Newark
2026	33:799:460 Introduction to Six Sigma and Lean Manufacturing (TBA)	New Brunswick

Course Evaluations (Summary)

Prior teaching — Overall effectiveness: 4.91/5.00 | Course quality: 5.00/5.00 | Response rate: 85% (Evaluation Report)

Course Development & Pedagogical Innovation

- Business Analytics & ML Course Platform (modular curriculum: 10+ modules, 3 capstone projects, integrating theory, business applications, and Python-based labs)
- Authored teaching guides: Data-Driven Analysis Manual; Business ML Guide

Interactive Teaching Materials | www.chenhaozhou.me/teaching.html

Operations & Management Analytics

- M/M/c Queue Model
- Port Management (AI Recommendations)
- Hospital Infusion Center Scheduling (AnyLogic)
- Newsvendor Model
- Vehicle Routing (TSP)
- Facility Location

Supply Chain Finance

- Cash Conversion Cycle
- Reverse Factoring
- Dynamic Discounting
- Portfolio Optimization
- VaR & Risk Metrics
- EOQ Interactive Demo

Handbooks & Student Guides

- *Data-Driven Analysis*
- *Machine Learning for Business Analytics*
- *Supply Chain Finance & Operations Analytics*
- *Endogeneity & Causal Inference Methods* (open-access, 2026 ed.)
- *Teaching with Claude AI*

Teaching Assistant (Selected)

Undergraduate

- Demand Planning & Fulfillment (2021–2025)
- Process & Operations Management (2024)
- Supply Chain Analytics Essentials (2023)
- Six Sigma and Lean Manufacturing (2023)

Graduate

- Supply Chain Finance (2024)
- Global Procurement & Supply (2023–2024)
- Supply Chain Analytics (2023)
- Operations Analysis (2023)
- Project Management (2022)

Certification Examination Support

Lean Six Sigma Green Belt Technical Certificate (Rutgers Business School)	2022–2025
Advanced Certification in Procurement (Rutgers Business School)	2025

INDUSTRY EXPERIENCE

Cancer Institute of New Jersey, NJ 2022–2024
Research Collaborator (Project-Based)

- Led simulation modeling in a grant-funded partnership with clinical teams
- Developed agent-based models achieving 30% reduction in wait time—adopted for deployment
- Advancing to Phase II: deep reinforcement learning for patient-centered scheduling

Lujiazui Intl Trust Co., Ltd., Shanghai 2020
Investment Research Associate (Project-Based)

- Evaluated trust fund/real estate investments using data-driven forecasting
- Built ML and PSO-based forecasting models; contributed to two publications (IEEE; J. Phys. 2021)

China Securities Co., Ltd., Beijing 2016
Summer Data Analyst

ACADEMIC SERVICE

Conference Presentations

- POMS Annual: "Community Health Disparities & Dialysis Performance" (2026)
- POMS Annual: "Team Continuity Amid Workforce Fissure" (2026)
- DSI Doctoral Research Showcase: "Healthcare Operating in Fissured Workforce" (2025)
- DSI Healthcare Mgmt: "Clinician Empowerment in Resource-Constrained Dialysis" (2025)
- DSI SCM: "Organizational Learning in a Fissured Healthcare Workforce" (2025)
- INFORMS Service Science: "Resilience in Health Care Operations" (2025)
- DSI Healthcare Mgmt: "Clinician Empowerment and the Triple Aim" (2024)
- INFORMS Annual: "Optimizing Oncology Outpatient Flow" (2024)
- INFORMS Annual: "ED Crowding and Diversion Operations" (2023)

Invited Talks & Session Leadership

- Invited Speaker, CHOM Synapse: Healthcare Operations Engagement (2023)
- Session Chair, POMS Healthcare Analytics (2025, 2026)
- Session Chair, INFORMS Service Science (2025)

Editorial & Review Service

- *Annals of Operations Research* (2025–present); *Health Care Management Science* (2024–present)
- Annual DSI—Project Mgmt; Gig Economy (2025); Healthcare (2024)
