CHENHAO ZHOU

Ph.D. Candidate | Graduate Instructor
Dept. of Supply Chain Management | Rutgers Business School
Newark: 1 Washington Park, Newark, NJ 07102 New Brunswick: 100 Rockafeller Rd, Piscataway, NJ 08854
(929) 314–1613 • chenhao.zhou@rutgers.edu • www.chenhaozhou.me • in

Education

Rutgers Business School, Rutgers University Expected May 2027
Ph.D. in Management | Concentration: Supply Chain Management | GPA: 4.00/4.00
Dissertation committee: David Dreyfus (Chair), Weiwei Chen, Xin Ding, Keith Skowronski.

Tandon School of Engineering, New York University 2021
M.S. in Engineering / Industrial Management; Mentor: Thomas Mazzone.

Questrom School of Business, Boston University 2019
B.S. in Business Administration.

Professional Development

Springer Nature 2026
Certification on *Using AI in Scientific Writing*—research quality, integrity, and responsible use.
Robert H. Smith School of Business, University of Maryland 2025
AI & Career Empowerment Certificate (online).
DataCamp track: Data Scientist 2024

Teaching Record

Lecturer
Demand Planning & Fulfillment 2025–2026
Supply Chain Analytics 2026
Class evaluation (effectiveness/quality, out of 5): 2025: 4.91 / 5.00; 2026†: 4.78 / 4.67 (†most recent; details on page 3)

Research Interests

Healthcare operations; supply chain relationships & sustainability. *Methods:* causal identification & structural estimation.
My current research examines how public policy and environmental conditions—both shifts and persistent differences—affect organizational performance, and how firms adapt operations strategy across institutional contingencies.

Publications

Conference Presentations

- DSI Annual: Intelligent Systems & Preventive Care Design (**Best Paper Finalist**); Supply Chain Innovation. 2026
- MSOM Annual Conference, Harvard Business School: Two papers invited. 2026
- POMS Annual: Community health disparities; team continuity amid workforce fissure. 2026
- DSI Annual: Doctoral Research Showcase; clinician empowerment; learning in a fissured workforce. 2025
- INFORMS Service Science: Resilience in health care operations. 2025
- DSI Healthcare Management: Clinician empowerment and the Triple Aim. 2024
- INFORMS Annual: Optimizing oncology outpatient flow. 2024
- INFORMS Annual: ED crowding and ambulance diversion operations. 2023
- Invited Speaker, CHOM Synapse: Healthcare operations engagement (Program). 2023

Academic Service

Session Leadership

- Session Chair, POMS Annual Conference (Healthcare Analytics) 2025, 2026
- Session Chair, INFORMS Service Science Conference 2025

Ad hoc Journal Reviewer

- *Annals of Operations Research*
- *Health Care Management Science*
- *Journal of Business Ethics*
- *Technology and Health Care*

Conference & Competition Review Service

- DSI Annual Meeting (Paper Competitions & Track Reviewer) 2024–2025
- AOM Annual Meeting 2024–2025

Professional Memberships: POMS | INFORMS | DSI | AOM | IEEE

Teaching Experience

Graduate Instructor

Rutgers Business School at Newark and New Brunswick

29:799:310 Demand Planning & Fulfillment 2025
33:799:310 Demand Planning & Fulfillment 2026

Rutgers School of Business–Camden

52:620:326 Supply Chain Analytics 2026

Course evaluations (affiliated)

Year	*Teaching effectiveness*	*Course quality*	*Participation rate*
2025	4.91/5	5.00/5	85%
2026†	4.78/5	4.67/5	53%

†Most recent term; Fall semester in progress.

Teaching Assistant

Undergraduate

- Demand Planning & Fulfillment 2021–2025
- Process & Operations Management 2024
- Supply Chain Analytics Essentials 2023

Graduate

- Supply Chain Finance 2024
- Global Procurement & Supply 2023–2024
- Supply Chain Analytics 2023
- Operations Analysis 2023
- Project Management 2022

Certification Examination Support

Lean Six Sigma Green Belt Technical Certificate (Rutgers Business School) 2022–2025
Advanced Certification in Procurement (Rutgers Business School) 2025

Course Material and Development

Interactive online courses

- ML: Business Analytics to Code (11 modules)
- ML Frameworks & Applied Analytics (4 frameworks)
- Supply Chain Finance (6 chapters)
- Student Research Preparation Track (4-week sequence)

Coding reference guides

- Python for Data Science & Analytics (10 chapters)
- Stata for Econometrics & Research (10 chapters)
- R for Statistical Computing (10 chapters)
- SQL for Data Analytics (10 chapters)

Teaching videos and class demonstrations | Class Updater & lecture archive

- A/B Testing: From Regression to Experiments
- Linear Programming: Models & Supply Chain
- EOQ & Inventory Ordering Operations
- Causal Inference & Empirical Interpretation

Handbooks & student guides

- Data-Driven Analysis
- Supply Chain Finance & Operations
- Endogeneity & Causal Inference Methods
- Online Learning & Analytics Resources
- ML for Business Analytics
- Prompt Engineering in the Academic Journey
- AI-Powered Coding & Workflow Automation
- Professional Digital Presence

Interactive Simulations | www.chenhaozhou.me/teaching.html

Operations & Management Analytics

- M/M/c Queue Model
- Port Management (4 Strategies)
- Infusion Center Scheduling (AnyLogic)
- Newsvendor Model
- Vehicle Routing (TSP)
- Facility Location (Capacitated MIP)

Supply Chain Finance

- Cash Conversion Cycle
- Reverse Factoring
- Dynamic Discounting
- Portfolio Optimization
- VaR & Risk Metrics
- Monte Carlo & EOQ Simulations

Honors, Fellowships, and Research Funding

Award / project	Amount	Years
Best Paper Award Finalist, DSI Annual Conference		2026
Graduate School Academic Excellence Award	$1,000	2025
Alfred J. Battaglia Memorial Fellowship ($3,500, awarded twice)	$7,000	2024–2025
Summer Research Grant ($4,000 annually, four years)	$16,000	2022–2025
Team project: "Workflow Optimization and Structure Benchmark"	$105,767	2022–2023

Personal fellowships and awards to date: **$24,000**. Role on funded project: graduate researcher, Rutgers Cancer Institute (X. Ding and W. Chen, Co-PIs).

Technical Skills

Programming:	Python, R, SQL, Stata, MATLAB, LaTeX
Optimization & Simulation:	AMPL, AnyLogic, CPLEX, Gurobi, OptQuest
Econometric Methods:	Panel data; IV/CF; SCM; local projections; structural estimation
ML/AI Methods:	Causal ML; deep reinforcement learning
Visualization & Web:	Power BI, Tableau, HTML, React, JavaScript
Software Development:	`clp` (curvilinear local projections); `udiag` (U-shape diagnostics; Stata)
Languages:	English (fluent), Mandarin (native)

Professional Experience

Cancer Institute of New Jersey, New Brunswick, NJ 2022–2024
Research Collaborator (Project-Based)

- Led simulation modeling in a grant-funded partnership with clinical teams.
- Developed agent-based models achieving a 30% reduction in wait time; adopted for deployment.
- Advancing to Phase II: deep reinforcement learning for patient-centered scheduling.

Lujiazui International Trust Co., Ltd., Shanghai 2020
Investment Research Associate (Project-Based)

- Evaluated trust-fund and real-estate investments using data-driven forecasting.
- Built ML and PSO-based forecasting models; contributed to two publications (IEEE; J. Phys. 2021).

China Securities Co., Ltd., Beijing 2016
Summer Data Analyst

- Analyzed margin trading and securities lending data; delivered daily strategic briefings to the research team.
